Freight Collect - Pay freight line direct for shipping cost

Pre-Paid Freight - Crest adds cost to your order

Customer Pickup Up

Ship to: _____

Due to continually evolving product and installation codes and variations in codes among jurisdictions, certain standard features and product options may not apply to every order. SHC's authorized dealers are required to ensure that installation of each elevator complies with all local regulations and code requirements governing the installation and use of elevators for the municipality in which they are installed. Crest strongly recommends that customers consult with their local authority to ensure that their elevator features and the installation of their elevator meets regulations and code requirements for their jurisdiction.

Note: Wheelchairs come in a variety of sizes. Be sure to check the size and weight of the wheelchair being used before deciding on any elevator or lift to assure choice of model will provide the space and load capacity needed.

Codes: While Crest builds all elevators to meet ASME A17.1, Part 5.3, Residential Elevator Standards when installed correctly, some states, cities and/or counties implement local codes that override these standards. Always check with the local authority having jurisdiction to verify the codes that must be adhered to in you location.
