Aero Z Shown with Available Options

**Aero 2**

THE TILITE AERO Z - REVOLUTIONARY STYLE IN A  
CUSTOM BUILT ULTRALIGHT ALUMINUM CHAIR!

**WE APPLIED THE SAME TECHNOLOGY AND DESIGN FROM OUR TITANIUM LINE TO THE AERO Z AND THE RESULTS ARE AMAZING!**

The Aero Z brings the superior level of performance, customization and style you have come to expect from TiLite to an aluminum chair. Revolutionary style in a completely custom made, ultra-lightweight aluminum chair. From components like TiLite's trademark soft roll casters to rear seat heights and center of gravity choices, the new Aero Z offers more selectable options than any other chair in its class. More options equal better fit and performance for the user.

**TILITE INNOVATION.**

- Adjustable "Bullet" caster housing.
- 1.25" 6061-T6 "Mono-tube" aluminum frame.
- "Tru-Fit" system.
- "TiShaft" back release bar.

**CUSTOM BUILT.** The Aero Z's innovative 1.25" mono-tube aluminum frame is **uniquely modeled** using sophisticated CAD software and is **hand made** by the TiLite team to each customer's **exact specifications**. The Aero Z also features the **TiShaft** back release bar which **eliminates** the outdated **string** used to fold the backrest on most chairs.

**ADJUSTABILITY.** The TiLite Aero Z is fully adjustable, making it **ideal** for **new users** or those with **changing needs**. The chair's adjustable **bullet** caster housing has a clean, integrated look and provides **15"** of forward and rearward adjustment. TiLite's **Tru-Fit** system makes changing the **center of gravity** a snap. By clamping onto the frame instead of bolting through it, this system also dramatically **improves durability** by **reducing** the number of **holes** in the frame. The **Tru-Fit** system's innovative axle plate design makes **transporting** the chair **easier** because the axle plate never extends below the camber tube.

**COLOR.** TiLite in color? TiLite's Aero line of aluminum chairs is available with 14 frame colors. Whether you are looking for **beautiful**, **aggressive**, or just plain **cool**, now there is a TiLite for you. Mix and match TiLite's frame and accessory colors on the **Color Matrix** at TiLite.com.
