

HORIZON PLUS STAIR LIFT

No better choice than the Horizon Plus

FOR STRAIGHT STAIRCASES WITH NO CORNERS OR INTEGRAL LANDINGS

When it comes to straight and simple, there is no better choice than a HORIZON PLUS stair lift. Save space and energy while providing passengers with a safe, reliable ride. It's easy to order, and simple to install.

The HORIZON PLUS features a single rail design and comes with a choice of Ergo or Standard seat, to deliver a tailored stairlift solution. Our HORIZON PLUS model features a weight limit of 320 lbs, together with a slimline seat and all the essential features to ensure a safe and comfortable ride.

A manually operated swivel allows you to safely turn to face the landing at the top of the stairs. The HORIZON PLUS rail can also incorporate a hinge so that when not in use, the lift will not obstruct any doorways or access routes in your home.

EASY INSTALLATION

With our qualified technicians, your HORIZON PLUS stairlift can be installed quickly and safely.

STRAIGHT AND SIMPLE

The rail is fixed to your stair treads, not the wall, ensuring there is no building mess or damage to your décor.

PEACE OF MIND

The HORIZON PLUS meets ASME 17.1, ASME 18.1, CSA-B613 B355-15, giving you the peace of mind!

Synonymous with comfort and reliability

These standard features come on every HORIZON PLUS.
No extra cost, just great value!
